Experience

Software Development Intern

All Blue Solutions Inc

Dallas, TX 2018

- Core backend API and product development for ngDesk
- Wrote diverse service packages with Java, MongoDB, Redis to support Spring Boot application running Apache Kafka
- Created web scraper system with jsoup and db2jcc4 to aggregate and transfer all new client EMR data
- Built internal messaging interface with push notifications (AWS) through publish/subscribe model (STOMP.js)
- Generated scripts to automate parsing of IBM external sales CSV's into internal SugarCRM (MariaDB)

Application Developer

Kenna

Mississauga, ON 2016 - 2017

- Full stack development with MS SQL Server and IBM Lotus Notes platform, utilizing Domino Designer IDE
- Worked within several client modules, created and updated various functionalities for tools
- Designed and developed dynamic interfaces for users
- Built backend PDF generation system for client warranties
- Wrote and debugged document queries with LotusScript
- Manipulated SQL data structuring to streamline load times
- Optimized SFTP network using Java (JSch API)
- Coordinated leads during department scrums

IT Analyst

Toronto-Dominion Bank

Toronto, ON 2016

- Parsed data from several TD branches to tabulate Monthly Operational Report metrics for bank retail and email users
- Wrote Python script with Splunk API to search and retrieve cloud data for thousands of TD VM's
- Consulted for visualization techniques in informational reporting and proposal decks
- Automated scheduled spreadsheet processing with Excel VBA and reworked team macros to deliver faster solutions

Education

University of Waterloo (Class of 2021)

Candidate for Honours Systems Design Engineering (BASC)

Awards: President's Scholarship, Motorola Eng. Scholarship

Relevant courses: Computation, Human Factors in Design, Digital Systems, Data Structures and Algorithms

Glenforest Secondary School (2011-2015)

International Baccalaureate Diploma

Graduating Average: 95%

Skills

Technical

Languages & Frameworks

Java (Maven), Python, C++, VBA, HTML, CSS, JavaScript (jQuery, Angular), XSP/XML, PHP, Bash (cron), Arduino, Git, REST, Elasticsearch

Databases & Servers:

SQL, DB2, MySQL, MongoDB, Tomcat, WebSphere Liberty, Domino

Personal

- Social & networking
- Communication
- Quick learner
- Leadership
- Strategy & planning
- Analysis

Creation:

Sketch, SolidWorks, Logic Pro X, Adobe Photoshop, Flash, MS Office Suite, Eclipse, PyCharm

Projects

Dream Team Pong

Developed ping pong game using Python and QtGUI interface

Dicejack

Built Blackjack simulation implementing various hardware configurations with Arduino UNO

Kōan – Hack The North 2016

Panic attack prevention app built with MUSE Headband SDK, using Python, Firebase, Ruby on Rails, node.js, Twilio API

Extra curricular and Volunteering

Leadership Developer (2013-2015)

Peel Students' Presidents Council

- Coordinated activities with hundreds of regional students at overnight leadership conference for holistic development

Youth Committee Ambassador (2015)

Multiple Sclerosis Society of Canada

- Worked to bring issue and awareness of MS to forefront of youth in community
- Organized event campaigning and design, led sales team

Activities and Interests

- Lifeguarding (12 years of swim experience & qualifications)
- Drawing and design
- Videography
- Music
- Writing
- Economics
- Powerlifting
